Getting Business By Being On The Job!

We'll grant that business has been rotten. There's no use trying to gloss over this fact.

But you'll have to grant us that the turn is bound to come—just as it did following the “buyer's strike” back in 1921.

And you'll have to grant that there is business to be had today—depression or no depression!

And there will be business to be had next year and the year after.

Who will get this business?

THE MAN ON THE JOB WILL GET THE BUSINESS! He will get it just because HE will be on the job working while so many others are “waiting for easier times.” He will get the business because he keeps telling his customers and prospects that he wants their business! He will get the business because he has faith in himself, in his business, in his Nation and in his God!

The Show MUST Go On! The Show WILL Go On!

* * * * *

Here's a chance to make some real money by being on the job. Turn to page 3 and look at our June offer on Ferns—and don't forget the Dahlia Roots.
